

Casus Belli

Deivos

Let's start a war, up in the heaven
Let's start a war!
Let's start a war, here on earth
The war is on!

Let the venom flow thru our veins
And set the fire in our hearts
Let it grind the soul
Let it perish every sign of hope

May the nuclear breath
Blow through thousandsof days
In the name of every god now and ever

I carry my law with a hurricane
Storm and thunder burn my mark
I carry my law with a hurricane
Storm and thunder burn my mark

A body in a grave, a silent witness, the false flag
A sign of peace
The fourth part of the world is destroyed
Under the banner of hate
