

# Nuclear Wind

Deivos

Nuclear wind shall whip this land to ashes  
Humankind sentenced to die  
Worshippers of doom, creators of their own  
Praised be the poison  
All Hail the apocalypse  
Blessed be the void  
With blast, light and fire  
Melt your own arrogance  
Burn the pride, kill the hope  
Let it blow, nuclear wind

Never care about nothing

Now you regret, but it's too late  
You'll reap what you saw!

Seeks for excuses, it's their fault  
Arrogant bastard, prepare to die  
You'll reap what you saw!

With blast, light and fire  
Melt your own arrogance  
Burn the pride, kill the hope  
Let it blow, nuclear wind
