

Trial of Bloodletting

Deivos

rendering blades configure new lamentations
master the blasphemy
this sacred pain like spearhead in jesus' side
bleed for the world to see the animal inside

treasure the suffering, body deformed, contorting
serpentine grace of malicious penetration feast
stifle the cry's of eviscerated soul
summon the beast, uncoil the venomous tongue

demonic injection, realization of the vision
a trial of bloodletting, infernal awakening
the ceremony to exalt the flesh and blood
morbid communion of bodily fluids, purifying rite

tortured, temple of spirit fallen
pulsating joy of shattered innocence

dagger caressing
the quivering, blood soaked skin
sacrificed on the altar of lechery
