

# Light It Up

Dej Loaf

I'ma light it up, uh  
Ooh, yeah

I'ma light it up, then, I'ma light you up (I'ma light you up)  
I'ma light it up (I'ma light it up), then, I'ma light you up  
So, spark it, I can see you shinin' from across the room  
Love it when I touch your body, baby, let's get it on

Twisted on the daily, twisted on the daily, yeah  
You know you're my baby, you know you're my baby, yeah  
I can't see you without me  
Hm, and I know you feel the same way about me  
Yeah, get you twisted, then, let's roll (Get you twisted)  
You love it when I take control  
I love your body and your soul  
We gon' smoke until it's gone

Uh, uh  
Do you wanna drive or ride in my car all night?  
Baby, I'm not tryna clog your mind  
I'm just tryna clear your mind (Just tryna clear your head)  
Ain't nothin' like the first time (Whoa)

I'ma light it up (I'ma light it up), then, I'ma light you up (I  
'ma light you up)  
I'ma light it up (I'ma light it up), then, I'ma light you up (I  
'ma light you up)  
So, spark it, I can see you shinin' from across the room  
Love it when I touch your body, baby, let's get it on
