

# Up Or Down

Dej Loaf

I'm gonna let you make your round  
I know you be back in no time  
No matter if I'm up or down  
I know that you stuck in your ways  
Sometimes I know you need space  
I know I have you by my side  
No matter if I'm up or down  
I wanna meet you where it goes down

Shey you go turn me on  
I hurt your feelings it wasn't intentional  
On my mind anytime I hit the road  
Is the pussy worth to fight for  
Ain't no pussy I an die for  
Is it really my own or is it my time  
And I'm focused on your body  
And I'm focused on your body  
Every morning give me sweet loving, yea

I'm gonna let you make your round  
I know you be back in no time  
No matter if I'm up or down  
I know that you stuck in your ways  
Sometimes I know you need space  
I know I have you by my side  
No matter if I'm up or down  
I wanna meet you where it goes down

Wan kill me  
All the women for the city wan kill me  
You're the only one that know me you're the realest  
I be john cena  
Na you be my fine undertaker  
Don't worry about the others they ain't winner  
Committing committing committing is a problem  
Is your problem  
I know that you want me but I cannot be solving  
All your problem  
I may never find I may never find  
Loving make me fee so high  
When I feel am I running to the other side  
Other side, ya, other side, ya ya ya

I'm gonna let you make your round  
I know you be back in no time  
No matter if I'm up or down  
I know that you stuck in your ways  
Sometimes I know you need space  
I know I have you by my side  
No matter if I'm up or down  
I wanna meet you where it goes down...

I'm gonna let you make your round
