

## Bluest Man In Town

Del McCoury

You went away to leave me here  
To find somebody new  
You're happy now with your new love  
And I'm alone and blue  
The shadows are creepin' around my door  
The sun will soon go down  
The night birds are cryin' on the mountain  
I'm the bluest man in town  
You took away a love we knew  
You wrecked our happy home  
You left me with a broken heart  
So blue and all alone  
The shadows are creepin' around my door  
The sun will soon go down  
The night birds are cryin' on the mountain  
I'm the bluest man in town  
The shadows are creepin' around my door  
The sun will soon go down  
The night birds are cryin' on the mountain  
I'm the bluest man in town
