

Happiness

Del Shannon

I hope you're happy with someone new
Although I love you, I'm wishing you happiness
And all my love to you
I thought you loved me
I thought you cared
And then he came along and broke up our affair
But happiness, this is my wish to you

Although I know you're his
What can I do but sit here thinking how I love you?
Treat him gentle and don't be cruel
And he'll always live you and give to you
Happiness, this is my wish to you

Happiness, this is my wish to you
To you
To you
