

Let's Dance

Del Shannon

I'm sick and tired of being tied down,
It's good to see this old pace
Seems like a hundred years or more
Since I've seen a different face

Well it wouldn't be so bad
If she'd leave me alone
But she's never satisfied at all
So I packed my guitar and threw it in my trunk
Gonna have myself a ball

Let's dance, let's dance, let's dance the night away
I don't care if I ever get home
Keep playing those good old songs
Let's dance, let's dance, pass the bottle around
Let's bring up the sun when the morning comes
Let's dance all night long
Rock on!

Well it wasn't long ago that I settled down
To a life I thought was fine but all her friends and mine slowly
changed my mind,
and I'd rather be free single any old day and to sit home and dry
her tears
It's great to see everyone here, let's dance the night away

Let's dance, let's dance, let's dance the night away
I don't care if I ever get home
Keep playing those good old songs
Let's dance, let's dance, pass the bottle around
Let's bring up the sun when the morning comes
Let's dance all night long
Rock on!
