

# The Answer To Everything

Del Shannon

Don't ask me a mountain of questions  
When there is only one answer to it all  
Do you love me, really love me as I love you  
It's the answer to everything if you do

Don't give me a million excuses  
When I am waiting with my arms open wide  
Do you love me, really love me as I love you  
It's the answer to everything if you do

If there is someone else  
Some other place  
Who holds your heart  
Tell me now, truthfully  
Before we start

Don't act like you misunderstand me  
When there is simply no mystery to it all  
Do you love me, really love me as I love you  
It's the answer to everything if you do
