

When I Had You

Del Shannon

I Just stopped to say goodbye
Another day's gone by
And I'd like to get some things I left behind

I could say that I'm alright
I can make it through tonight
Without you but you know that ain't true
I know you found someone new
And I ain't blamin' you
'Cause I'm the one that threw it all away

I never had it so good
But I never did things the way that I should
I never had it so good
Baby when I had you, when I had you
When I had, baby when I had you

Long empty days, long lonely nights
I would give anything, to make things alright
I never had it so good
But I never do things the way that I should
I never had it so good
Baby when I had you, when I had you
When I had, baby when I had you

I never had it so good but I
Never did things the way that I should
I never had it so good baby when
I had you, when I had, when I had,
Baby when I had you

I never had it so good
