

## Bad Things

Delacey

Two, three, four

They said to run  
Never look back  
Hearts break so easy and they always have  
Maybe back then I was nervous around it

'Cause I only heard bad things about it  
Yeah, I'd only heard bad things about it

Said it don't last, it only gets stale  
You only fall out of it, time never fails  
You're not the first one to think that they found it

Yeah, I've only heard bad things about it  
Yeah, I'd only heard bad things about it

We're not the first times to do it, not special or lucky  
But I'm tangled in you, then I don't feel like running  
I have your love and I can't live without it

Can't believe I heard such bad things about it  
Can't believe I heard such bad things about it  
How'd I ever hear such bad things about it  
Can't believe I heard such bad things about it
