Delacey

You fell in Love  
With the world  
It wasn't what  
You thought it was  
It broke your heart  
It's hard growing up, darling

Shave your legs  
Go have sex  
Smoke a red  
And worry less  
Baby steps it's hard growing up, darling

Darling, put your lipstick on  
And leave the apartment  
Dry those pretty eyes go out and sit in the garden  
Sing em one more song  
Finish what you started  
Put your lipstick on

You gave yourself with no abandon  
Dust it off and then get past  
You fell in love he wasn't yours, darling  
You can cry while your laughing  
Wet your hair and go out dancing  
The world ain't fair but it's all yours, darling, darling

Darling, put your lipstick on  
And leave the apartment  
Dry those pretty eyes go out and sit in the garden  
Sing em one more song  
Finish what you started  
Put your lipstick on

Skin is gonna change  
Hearts are gonna break  
Gonna lose your way  
Musics gonna fade  
I know you've heard it all before  
But when you don't wanna try  
Darling, that's alright

Ooh, put your lipstick on  
And leave the apartment  
Dry those pretty eyes go out and sit in the garden  
Sing em one more song  
Finish what you started  
Put your lipstick on
