

# Someone's Gotta Be The Last

Delacey

Take it from me  
If you fight it, it will come  
And it's tragic if it does  
And it's tragic if it don't  
Some of them hurt  
More than others  
Some are worth  
All the trouble  
You can hope  
But you don't get to choose

When you lose them  
And we're all gonna go  
You can think that you'll know it  
But you won't

Someone's gotta be the last  
Someone's gotta be the last  
Funny how it works like that  
Someone's gotta be the last

We're only here  
Till a big meteorite  
Or a quiet thief in the night  
You can tell me otherwise

The best we've got  
Is insurance  
Signatures  
And clerics  
And your word  
And you can take it back

Couple billion that you could've got to know  
Couple billion and yet out of all of those

Someone's gotta be the last  
Someone's gotta be the last  
Funny how it works like that  
Someone's gotta be the last

Someone's gotta be the last  
Someone's gotta be the last  
Since the day I met you, babe, you had it in the bag  
Someone's gotta be the last

Someone's gotta be the last
