

# We Had Everything

Delain

We had every-, we had everything  
We had everything

We had time  
Reveling in the dawn of life  
If only then we had known  
Just how fast it goes by  
We were crying  
Through the best days of our lives  
If only then we had known  
It's a shame, such a shame

We had every-, we had everything  
Softest sunsets and drunk on your scent  
We had everything  
Mixed with the salt on your skin  
We had every-, we had everything  
We had everything

We had pride  
Reveling in the dark of night  
Thinking simple of love  
"It will come as it goes"  
We were blind  
Never knew what we left behind  
It would never return  
But in dreams, bittersweet

Softest sunsets and drunk on your scent  
We had everything  
Mixed with the salt on your skin  
We had every-, we had everything  
Softest sunsets and drunk on your scent  
We had everything  
Mixed with the salt on your skin

We had every-, we had everything  
Softest sunsets and drunk on your scent  
We had everything  
Mixed with the salt on your skin  
We had every-, we had everything  
Softest sunsets and drunk on your scent  
We had everything  
Mixed with the salt on your skin
