

# Howl

Delaney Jane

Take me to your wild side  
Where we can howl like wolves  
At the moon  
Take my by the city life  
But I could use some piece of mind  
A piece of you  
Just me and you

Let's get lost in your bedsheets  
Drawin' maps on our bodies  
Tracin' over my skin  
Let you color me in  
And the further that you are  
Every second we're apart  
Makes my head scream, my heart shout  
I just wanna cry out

How  
How will I let you know  
Howl if you are alone  
How did I let you go  
How  
How will I let you know  
Howl if you are alone  
How did I let you  
How did I let you go

Take me to the place we met  
Sing me "Bennie and the Jets"  
Out of tune  
And I'll fall for you  
Have you figured out yourself just yet  
'Cause I figured out the other rest  
My only muse (and I love you)

I know I said that I need space  
But the truth isn't crazy  
I get so close but just miss  
Yeah I always do this  
And the further that you are  
Every second we're apart  
Makes my head scream, my heart shout  
I just wanna cry out

How  
How will I let you know  
Howl if you are alone  
How did I let you go  
How  
How will I let you know  
Howl if you are alone  
How did I let you  
How did I let you go

How did I let you go

Let's get lost in your bedsheets

Drawin' maps on our bodies  
Tracin' over my skin  
Let you color me in  
And the further that you are  
Every second we're apart  
Makes my head scream, my heart shout  
I just wanna cry out

How  
How will I let you know  
Howl if you are alone  
How did I let you go (How did I let you go)  
How  
How will I let you know (How will I let you know)  
Howl if you are alone (Howl if you are alone)  
How did I let you  
Oh, how did I let you go
