

Just Sex

Delaney Jane

We're at the bar again
Oh my God, we're gonna go too far again
Oh no, we both don't keep our promises
We're oh so bad at this
Bein' friends who kiss

I like it when you speak
But I prefer when you're on top of me
We both know there's way too much history
And now it's hard to see
You not touching me

'Cause in my head it's all been said
And we're soaking wet in the back of your car

And it hurts like heaven
But it's good as hell
Let's not think about what's next
It's just sex
And we do it so well

It's not that complicated
One, two, three drinks
Gets us through conversation
Helps me forget
How you manipulated
How I self-medicated
We were such a mess (But we keep doing this)

And in my head it's all been said
And we're soaking wet in the back of your car

And it hurts like heaven
But it's good as hell
Let's not think about what's next
It's just sex
And we do it so well
It hurts like heaven
But I can't help myself
So don't think about what's next
It's just sex
And we do it so well
Yeah, we do it so well
Yeah, we do it so well

'Cause in my head it's all been said
And we're soaking wet in the back of your car

And it hurts like heaven
But it's good as hell (It's good as hell)
Let's not think about what's next
It's just sex
And we do it so well
It hurts like heaven
But I can't help myself
So don't think about what's next
It's just sex

And we do it so well

Yeah, we do it so well

We do it so well

Yeah, we do it so well

So don't think about what's next

It's just sex

And we do it so well

Yeah, we do it so well

We do it so well

Yeah, we do it so well

We do it so well
