

# Matinee

Delaney Jane

High for your love, high for your love  
High for your love when you look like that

You're my blood rush  
Sugar sweet touch  
You work too much  
(I think we need a little)  
Space to unwind  
Close all the blinds  
Boy, it's showtime  
(I'm pickin' up a signal)

Lights down for the matinee  
All day in the lingerie (Yeah)  
Sometimes you gotta get away, ah (When you look like that)  
Lay back for the honeymoon  
In the middle of the afternoon (Yeah)  
Lights down for the matinee, ah

High for your love, high for your love  
High for your love when you look like that  
High for your love, high for your love  
High for your love when you look like that  
Can't get enough, can't get enough  
Way too hot for your thermostat (Yeah)  
High for your love, high for your love  
High for your love when you look like that

Backseat with you  
Skip the preview  
Straight to my room  
(I think I need a little)  
Ice on my lips  
Simple plot twist  
You deserve this  
(I'm pickin' up the signal)

Lights down for the matinee

High for your love, high for your love  
High for your love when you look like that  
High for your love, high for your love  
High for your love when you look like that  
Can't get enough, can't get enough  
Way too hot for your thermostat (Yeah)  
High for your love, high for your love  
High for your love when you look like that

I'm so x-rated for you  
I got a ticket for two  
Lights down for the matinee, ah
