

Safe With You

Delaney Jane

I'm sorry
That's someone else's name you called me
Now that I turn around, you look familiar to me too
All of my friends left me
So typical, they get so messy
And so I'm kinda happy that I bumped right into you

You, I feel safe with you, you, you
I feel safe with you, you, you
I feel safe with you (Yeah)

Thought I would regret coming to this party
Empty bottles left, I don't know nobody but
I feel safe with you, I feel safe with you
People poppin' pills, powder on the counter
Ain't my type of thrill, all these ups and downers but
I feel safe with you, I feel safe with you

Feels like
Feels like I knew you in a past life
The way we vibing, you and I, just seem so natural
And every time I felt like this before (Yeah)
Every party made me wanna find the nearest door
Always askin' myself, "What the fuck I really came here for?"
Maybe you're the one that I've been looking for
Lookin' for

Thought I would regret coming to this party
Empty bottles left, I don't know nobody but
I feel safe with you, I feel safe with you
People poppin' pills, powder on the counter
Ain't my type of thrill, all these ups and downers but
I feel safe with you, I feel safe with you

You don't make me feel stupid for sayin' how I feel
And damn, it feels good, damn, it feels good to just be real

I thought I would regret coming to this party
Empty bottles left, I don't know nobody but
I feel safe with you, I feel safe with you
People poppin' pills, powder on the counter
Ain't my type of thrill, all these ups and downers but
I feel safe with you, I feel safe...

I feel safe with you, you, you
I feel safe with you, you, you
I feel safe with you, you, you
I feel safe with you (Yeah)

I thought I would regret coming to this party
