

We Don't Sleep

Delaney Jane

Walkin' round your neighborhood high as a kite
Laugh until we're outta breath, out of our minds
Take another sip from the bottle
We ain't gonna trip, might fall though
Everyday with you is like I'm livin' a dream
Kinda makes me think, is it too good to be
I like you so much it's a problem
You're everything I ever wanted

You turn on the light cause you wanna see
Every little thing that you do to me
People search forever for the love we got
Now that I got you I'll never give you up

We don't sleep
We do drugs
We don't fight
We just fuck
Friday night
That's what's up
We in love
And I love it
Yeah I love it

We stay in
We get drunk
We don't fight
We just fuck
Friday night
That's what's up
We in love
And I love it
Yeah I love it
I-I

I kinda wish that I could step right inside your mind
'Cause baby when you look at me I think I could die
Kiss me like you do, everything disappears
The world it don't exist when we layin' here
Started on the couch, we don't make it upstairs
You know you make it hard to move when you touchin' me there
Turn the living room into our play pen
You're my favourite person to escape in (ah)

We don't sleep
We do drugs
We don't fight
We just fuck
Friday night
That's what's up
We in love
And I love it
Yeah I love it

We stay in
We get drunk
We don't fight

We just fuck
Friday night
That's what's up
We in love
And I love it
Yeah I love it

You turn on the light cause you wanna see
Every little thing that you do to me
People search forever for the love we got
Now that I got you why would I give you up?

We don't sleep
We do drugs
We don't fight
We just fuck
Friday night
That's what's up
We in love
And I love it
Yeah I love it

We stay in
We get drunk
We don't fight
We just fuck
Friday night
That's what's up
We in love
And I love it
Yeah I love it
I-I
