

Hey Girl

Delays

Hey girl
Where in the world did you come from
Hey girl
Where in the world do you belong
Hey girl
Watching you walk is like a dream
Hey girl
You've got nerve and you sure got me

As I wanted
Singing lost and found
Like a fever running
We could clear this town

Hey girl
Where in the world did you come from
Hey girl
Nobody knows where you belong

So why don't you tell me
You're hanging above me
There's room everywhere
And I can't walk on air

Hey girl
Hey girl

Hey girl
Where in the world did you come from
Hey girl
Never return 'cause you belong

I said
Hey girl
I said
Hey girl
