

## Nearer Than Heaven

Delays

You are nearer than heaven  
I get the feeling I get nearer by the day  
I've seen the people go forever descending  
It's when we're all inside that summer's on the way

Bullet took it easy dollar lit the room  
Monsters making the evening news  
Packing up a round trip, I get in the way

Now I know that  
You are nearer than heaven  
I get the feeling I get nearer by the day  
I've seen the people go forever descending  
It's when we're all inside that summer's on the way

We could talk forever nothing would get done  
Stake your claim on the morning sun  
I get in the way

Now I see that  
You are nearer than heaven  
I get the feeling I get nearer by the day  
I've seen the people go forever descending  
It's when we're all inside that summer's on the way

Yeah yeah
