

Let's Get Down Like We Used To

Delbert McClinton

Hop up on this couch and bring that Smirnoff
Come on scootch on over next to me
We might even wanna kick our shoes off
Laugh out loud and do just what we please

Number one, we don't take no phone calls
Number two, there won't be no TV
Number three, we tell em all to get lost
Girl this night belongs to you and me

Let's get down like we used to
Cook up somethin' we can light a fuse to
Cop a groove we can bust a move to
Let's get down like we used to

I'll make a batch of my famous margaritas
We'll get down on our hands and knees
We'll take turns takin' goofy pictures
Send em out to all our friends on Christmas Eve

Let's get down like we used to
Lets cook up somethin' we can light a fuse to
Hit a lick old Bob can pick some blues to
Let's get down like we used to
Stay up all night long if we choose to
Let's get down like we used to
Let's get down like we used to
