

# Out Of My Mind

Delbert McClinton

Here's another night  
I just toss and turn again  
Try to read a little somethin'  
Maybe call an old friend  
I may slip into a dream  
But you're waitin' there for me  
Don't know why I can't forget  
I just let it all be  
Seems there is no way I can find  
To help me leave what we had then  
So I'm lookin' for a way out of my mind

I've tried to drink  
I've tried to smoke  
I've tried just about  
Every wrong thing I know  
I may feel a little better  
But just a little while  
Even threw my friends  
With a joke and a smile  
But there's nothing I can really find  
To help me leave what we had back  
So I'm lookin' for a way out of my mind

It's not that there aren't enough  
Distractions for me  
It keeps spinnin' faster every day  
But in everything I do  
I still find a part of you  
Somethin' to remind me  
In some unexpected ways  
That there's no way I can find  
To help me leave what we had back  
So I keep lookin' for a way out of my mind
