

# Heaven Is By Your Side

## Delegation

If you can imagine Heaven  
Right here on the ground  
You might have an ocean baby  
Oh the blue thing I've found

You carry my heart to places  
That I've never been  
I'm feeling right here and now girl  
And somewhere in between

And baby it's you  
You make my heart beat stronger  
You make each day last longer  
You keep the rain outside  
Baby, baby, baby it's you  
You take away my sadness  
Replacing it with gladness  
You fill my heart with pride  
And Heaven is by your side  
That's where it is baby  
It's by your side

How well I remember baby  
I'll never forget  
I knew that I found an angel  
On the day that we met

You held up your hand and touched me  
Like no one before  
The key to your heart you gave me  
To open Heaven's door

And baby it's you  
You make my heart beat stronger  
You make each day last longer  
You keep the rain outside  
Baby, baby, baby it's you  
You take away my sadness  
Replacing it with gladness  
You fill my heart with pride  
And Heaven is by your side  
That's where it is baby  
It's by your side

Baby it's you  
You make my heart beat stronger  
You make each day last longer  
You keep the rain outside  
Baby, baby, baby it's you  
You take away my sadness  
Replacing it with gladness  
You fill my heart with pride  
And Heaven is by your side

That's where it is baby  
That's where it is baby  
And it feels so good

Like Heaven true  
Well, well, well, well  
I'm on Heaven's door  
I need you more and...
