

## It Only Happens

### Delegation

Happens every time I look into your eyes  
I can almost see into your heart  
Oh, how can I explain?  
When time and time again  
It starts

It only happens  
When I look at you  
It only happens  
When I look at you

Wonder if you know  
The things I'm going through  
Can't you see my life depends on you?  
It's stronger everyday  
Believe me when I say it's true

It only happens  
When I look at you  
It only happens  
When I look at you

It only happens  
When I look at you  
It only happens  
When I look at you

Yes, you know the way  
I feel about you now  
Wonder if you feel the same way too?  
No matter what you say  
I'll get to you someday  
It's true

It only happens  
When I look at you  
It only happens  
When I look at you
