

## It's Your Turn

Delegation

It's your turn to hold this thing together, baby  
It's your turn, your love's around  
It's your turn, don't make it now or never  
(It's your turn) Don't you turn a good love down

Each time we're at the point of breakin' up  
And tears begin to fall  
I hope you'll be the one to make it up  
But, girl, you never call

Why is it, baby, that the first move is always mine?  
(First move is always mine)  
It ain't gonna be that way this time  
No, no (No, no)  
Hey, hey

It's your turn to hold this thing together, baby  
It's your turn, your love's around  
It's your turn, don't make it now or never  
(It's your turn) Don't you turn a good love down

It doesn't matter who is right or wrong  
Or who is bad to who  
When someone has to say, "I'm sorry, babe"  
I know it won't be you

Now is the time to let your heart overrule your pride  
(Your heart overrule your pride)  
You know you can do it if you try  
Just try (Try it)  
Hey, hey

It's your turn to hold this thing together, baby  
It's your turn, your love's around  
It's your turn, don't make it now or never  
(It's your turn) Don't you turn a good love down

It's your turn to hold this thing together, baby  
It's your turn, your love's around  
It's your turn, don't make it now or never  
(It's your turn) Don't you turn a good love down

(It's your turn) It's your turn to hold this thing together, baby  
(It's your turn) Your good, good love around  
(It's your turn)
