

# Atlas

Delphic

All the way around my window  
And all the way outside my door  
All the weight of the world  
All the weight of the world

Dream on, dream on  
Dream yourself a ride  
But it's been so long, so long  
Since you came to try

When you wake up, wake up  
Lift your head up  
Take a look around now  
Take a look around now

When you wake up, wake up...

Keep on, keep on  
Standing in the corner  
And i'm not saying it's your fault  
But history must haunt ya'

When you wake up, wake up  
Lift your head up  
Take a look around now  
Take a look around now

When you wake up, wake up  
Take a look around

All the way around my window  
And all the way outside my door  
All the weight of the world  
All the weight of the world

Move on, move on  
Find yourself another  
But every time you close your eyes  
The silence might surround ya'

So when you wake up, wake up  
Lift your head up  
You gotta wake up, wake up  
Get your head up

When you gonna wake up, wake up  
Get your head up  
Take a look around

Ooooo ooooo  
Ooooo ooooo

And all the way around my window  
And all the way outside my door  
All the weight of the world  
All the weight of the world

No, no more  
I can't pretend it's nothing i cannot ignore  
What's happening outside my door  
Wake up, wake up  
It's time to run
