

Freedom Found

Delphic

Cast your light out over shipwrecks
Build your castles in the sand
A thousand times
'Cause you're just dying to see the light
But I'm already three feet underground
We're caught in a rabbit hole
You left me nowhere to go
It's taking up all my love
Your faith is in everyone

This is a freedom found
Don't leave me underground
This is a freedom found
Don't leave me underground
There is now here or nowhere
There's now here or nowhere

We're caught in a rabbit hole
You left me nowhere to go
It's taking up all my love
Your faith is in everyone

This is a freedom found
Don't leave me underground
This is a freedom found
Don't leave me underground
There is now here or nowhere
There's now here or nowhere

And it's you
Yeah, you know how it feels
Just spin it on the wheel
On the wheel

This is a freedom found
This is a freedom found (Oh ah ha)
And it's now here or nowhere
(It's now here, it's now here)
It's now here or nowhere
(It's now here, It's now here)
