

Keep Climbing

Delta Goodrem

Packed my bags and I walk on foot
This was the time that I knew I should
There's a fear in every step
And I still love where I just left

Two mountains, I'm caught in the middle
Can't see the forest before the trees
This climbing breaks me a little
But the hope inside of me
That this lonely valley leads
To a bridge over troubled dreams
To a bridge over troubled dreams

I see new lines across my face
I lost some strength that I can't replace
Am I too tired for this healing
And are my scars now too revealing?

Two mountains, I'm caught in the middle
Can't see the forest before the trees
This climbing breaks me a little
But the hope inside of me
That this lonely valley leads
To a bridge over troubled dreams
To a bridge over troubled dreams

(Keep climbing, just keep climbing)
(Keep climbing, just keep climbing)
Oh...
(Keep climbing, just keep climbing)
Keep climbing
(Keep climbing, just keep climbing)
(Keep climbing, just keep climbing)
(Keep climbing, just keep climbing)
(Keep climbing, just keep climbing)
(Keep climbing, just keep climbing)

Two mountains, I'm caught in the middle
Can't see the forest before the trees
This climbing breaks me a little
That this lonely valley leads
To a bridge over troubled dreams
To a bridge over troubled dreams

(Keep climbing, just keep climbing)
(Keep climbing, just keep climbing)
To a bridge over troubled dreams
(Keep climbing, just keep climbing)
