

Kill Them With Kindness

Delta Goodrem

I believe in peace, I believe in us
I believe we can change the world
One act of love

I was driving my car
Looking out the window
Feeling like this day was beautiful
Then this guy walked right by
He flipped the bird to the sky
Said our world's a lie and I asked why

I guess it's all just how you see it
It's what you want to go believe in

I believe in peace, I believe in us
I believe we can change the world
With just one act of love
I don't care if this song's too much
It's just we've had enough
Let's put it behind us
Let's kill them with kindness

First in line, coffee time
I was still half asleep when
Got the news that life turned upside down
First instinct was to fight
I can't change this if I tried
It's about more than my own pride

And when you're feeling like they're judging
Keep dancing even when they're watching

I believe in peace, I believe in us
I believe we can change the world
With just one act of love
I don't care if this song's too much
It's just we've had enough
Let's put it behind us
Let's kill them with kindness

Never think that your time is better than
Anyone's we're in this together in
Making sure the world is a better place for everyone
Send out the love you want to receive
To people that you see in the streets
Take the chance to do something kind

I believe in peace, I believe in us
I believe we can change the world
One act of love
This song's too much
It's just we've had enough
Kind, let's kill them with kind
Let's put it behind us
Let's kill them with kindness
