

# Let It Rain

Delta Goodrem

I can't stay in silence  
Hoping this will go  
But it won't slow  
And it won't leave here today  
We walk on our great land  
Breathing in the ashes  
Of our hometown  
And it keeps on raging

They say, "Keep on praying"  
And we're waiting for the rain  
Let it rain here today  
Can it rain here today?

Thank you to our saviours  
We all know that you're saving  
You're saving the day  
And we're grateful for the heat you take away

They say, "Keep on praying"  
And we're waiting for the rain  
Let it rain here today  
Let it rain here today
