Anarchy

Delta Heavy

I've got another trick up my sleeve
In a nightmare saying that were living the dream
'till I said were freed and the put on the leash
Don't give us hope but we only have a minute to speak

And I got something on my mind, let me tell them again
Bring out the f*cking Calvary and let it commence
Everyone is making money but it don't make sense
Its happened once and we'll never let it happen again

We say that were safe, 'till we turn up the pressure
In the end of the day, we're old enough to know better

Old enough to know better
Old enough to know better
Old enough to know better
But young enough to not give a f*ck!

But young enough to not give a f*ck!
We're taking off our leash tonight
We gonna run the streets tonight
We're taking off our leash tonight
We riot in the streets tonight!

Thats why their trying to rip off my sleeve
'cause their sick and tired of us not giving them grief
Funny how they don't practice what the preach

Don't let us hope but they're never gonna listen to me

And I got something on my mind, let me tell them again
Bring out the f*cking Calvary and let it commence
Everyone is making money but it don't make sense
Its happened once and we'll never let it happen again

We say that were safe, 'till we turn up the pressure
In the end of the day, we're old enough to know better

We're old enough to know better
I say we're old enough to know better
I say we're old enough to know better
But young enough to not give a f*ck!

But young enough to not give a f*ck!
We're taking off our leash tonight
We're gonna run the streets tonight

We're old enough to know better
I say we're old enough to know better
I say we're old enough to know better

We riot in the streets tonight!

We gonna run the streets tonight
We're taking off our leash tonight!
We riot in the streets tonight!
