

# Bad Decisions

Delta Heavy

Sleepless nights, lonely mornings  
'Cause you won't pick up, or care to apologize  
I regret things said in the moment  
But everything we do just clouds my eyes, so

I'm gonna make a bad decision tonight  
Anything to get you off of my mind  
When you pull my trigger, I pour liquor  
See you on the other side

I'm gonna make a bad decision tonight  
Anything to get you off of my mind  
When you pull that trigger, I pour liquor  
See you on the other side

See you on the other side

See you on the other side  
See you on the other side

I'm gonna make a bad decision tonight  
Anything to get you off of my mind  
When you pull my trigger, I pour liquor  
See you on the other side

I'm gonna make a bad decision tonight  
Anything to get you off of my mind  
When you pull that trigger, I pour liquor  
See you on the other side

See you on the other side
