

Deep Down

Delta Heavy

You told me not to worry anymore
Just hold me when I'm about to fall
You catch me when I fall into despair
You give me breath when I need air

Holding close these memories
A thousand leagues under the sea
Deep down, deep down
Find the calm in the ocean blue
Always leads me back to you
Deep down, deep down

When I'm hurting you are my remedy
Floating high on your energy
I'll go deep deep down for you, for you
When I'm hurting you are my remedy
Floating high on your energy
I'll go deep deep down for you, for you

For you

I'll go deep deep down for you
I'll go deep deep down for you

When I'm hurting you are my remedy
Floating high on your energy
I'll go deep deep down for you, for you
When I'm hurting you are my remedy
Floating high on your energy
I'll go deep deep down for you, for you

I'll go deep deep down for you
I'll go deep deep down for you

You told me not to worry anymore
Just hold me when I'm about to fall
You catch me when I fall into despair
You give me breath when I need air

When I'm hurting you are my remedy
Floating high on your energy
I'll go deep, deep down for you, for you
When I'm hurting you are my remedy
Floating high on your energy
I'll go deep, deep down for you, for you

For you

I'll go deep, deep down for you
I'll go deep, deep down for you

When I'm hurting you are my remedy
Floating high on your energy
I'll go deep deep down for you, for you
When I'm hurting you are my remedy
Floating high on your energy
I'll go deep, deep down for you, for you, yeah
