

Higher Ground

Delta Heavy

All I need is somebody here with me
It's a waiting game when you don't feel the same
Give me space to breathe, I'm tumbling underground
Can you take this pain away from me?

I'm looking up to the sky for a place to go
You got me reaching up for higher ground
I'm gonna take my chances on a place unknown
You got me reaching up for higher ground

You got me reaching up
You got me reaching up
You got me reaching up for higher ground
You got me reaching up for higher ground

I can't sleep, this feeling it weighs me down
Too much to keep, I'm letting my secret out
No I don't see a way of getting out alive
Can you take this pain away from me?

I'm looking up to the sky for a place to go
You got me reaching up for higher ground
I'm gonna take my chances on a place unknown
You got me reaching up for higher ground

You got me reaching up
You got me reaching up
You got me reaching up for higher ground
You got me reaching up for higher ground
