

Forward

Delta Rae

Ou can't give up on hope
Each other's hand we hold
We're on a long hard road
But we travel it together
We pull each other up
We fill each other's cup
So we all have enough
We're all in this together
Oh, we're halfway there
So stand up, if you care (yeah, yeah, yeah, yeah)

Forward - we need to make our way
Forward - each and every day
Forward - you need to vote and say
Keep us moving forward
Forward - building every day
Forward - yeah, we're on our way
Forward - so let 'em hear you say
We'll move this country forward
ooh, oh yeah, ooh ah
We'll move this country forward

Yes, things are still tough now
But take a moment and think how
We've come so far and how
We did it all together
For all and not just some
For the many, not just one
And we're so far from done
It's a clearing in the weather
No time to back down
We're on our way to higher ground, yeah

Forward - we need to make our way
Forward - each and every day
Forward - you need to vote and say
Keep us moving forward
Forward - building every day
Forward - yeah we're on our way
Forward - so let 'em hear you say
We'll move this country forward

Oh, we're halfway there
So stand up if you care

Forward - responsibility
Forward - and dignity
Forward - and civility
Hey! Keep us moving forward
Forward - with equality
Forward - and stability
Forward - and humanity
Keep us moving forward

Forward - we need to make our way
Forward - each and every day
Forward - you need to vote and say

Keep us moving forward
Forward - building every day
Forward - yeah we're on our way
Forward - so let 'em hear you say
We'll move this country forward
Ooh, oh yeah, ooh ah
We'll move this country forward
