

# Take Off Your Shoes

Delta Rae

When you come to my house  
Take off your shoes  
Mama keeps the dogs out  
To keep it looking good  
You may think we're simple  
Living like we do  
When you come to my house  
Take off your shoes

Look at all the werewolves  
Out on the street  
Changing in the moonlight  
Showing off their teeth  
Say something enough  
And people think it's true  
When you come to my house  
Take off your shoes

I need somebody I can trust  
When all the silver plated heroes start to rust  
And there ain't nothing in this world except for us  
And the little things we do  
When you come to my house  
Take off your shoes

Did you ever wonder  
What's underneath  
Ghosts in every floorboard  
That'll touch your feet  
When we lose the past  
The future's nothing new  
When you come to my house  
Take off your shoes

I need somebody I can trust  
When all the silver plated heroes start to rust  
And there ain't nothing in this world except for us  
And the little things we do  
When you come to my house  
Take off your shoes
