

# Into The Darkness

Delta Spirit

So what's the part that you're playing?  
Should I have guessed who you're blaming?  
Do I know him? is it me you're naming?

You ain't got time, you ain't got nothin'  
You live on a rock, all covered in ocean  
We'll all be dead in a few years time  
Well, I am fine

Into the darkness we all go  
Out of the white light and the friends you know  
We'll be spread out like a mushroom cloud  
Spread all around

We're all just sheep being herded  
Well ain't that the truth, it depends how it's worded  
Pay no mind to the others in line you're hurting

All men's thoughts can kill you like cancer  
They smash through your head like a German Panzer  
It won't be long 'til you'll all be gone
