

What Is There

Delta Spirit

Bound to an oath
Riding out a debt
Always coming sideways
Never that direct
Diving off the deep end
And over all our heads
New kind of living
You wanted this instead

If it's one more record
Let it play on forever
Keep flipping the B-Side to the A
May it remain in our memory
The joy we found in the journey
Never needed to get there anyway
But what is there?

Kill 'em with a look
Exercise the right
Lightly make adjustments
A little lemon in the rye
Yawning at authority
Wasting no one's time
Investing in the truth
Never gonna lie

If it's one more record
Let it play on forever
Keep flipping the B-Side to the A
May it remain in our memory
The joy we found in the journey
Never needed to get there anyway
But what is there?

Wisdom in a silence
Infinitely prime
Leveling the scales
And loving on a dime
I will find you in another life
As if that could exist
Maybe you should take my place
Maybe after I'm dead

If it's one more record
Let it play on forever
Keep flipping the B-Sides to the A
May it remain in our memory
The joy we found in the journey
Never needed to get there anyway
But what is there?
What is there?
What is there?
What is there?
What is there?
What is there?

Joined in the order

Offering a prayer
Nap time's getting shorter
Agnes doesn't care
Tell another story
How you were in a band
Austin to Australia
New York to Neverland

If it's one more record
Let it play on forever
Keep flipping the B-Side to the A
May it remain in our memory
The joy we found in the journey
Never needed to get there anyway
But what is there?
