

My Only Love

Deltron 3030

Covert codewords contain information that colonizes nations that divides the races
Try to find a way that your mind can escape it, intoxication of selectedly cause we can't bust until we turn into vapor
The unseen hand be command in the paper
Using data sets up rumors and actions
You're too proactive they shoot ya for asking
Music is hazardous so a system is harnessed stringent enough to put bars around the conquest
Arguments send up to results to be charred to death once you get fire bombed beyond recognition
But karma will get them they create they own prison related to the witnesses of the horror which your own eyes and your mortified brains cells are recorded for life, there's more to the rhyme

My only love, has left me wrong
They tried to bury me, now it's all gone

My only love, has left me wrong
They tried to bury me, now it's all gone

Yo, the people support Del cause he's sorta like Orson Wells with depictions he fits in his tales
Deltron the second Event is now upon us a supersonic flight creates shock waves
The former enormous amount of sound energy passing overhead
A supersonic bullet I'm going in Mach One as long as I'm supersonic my new wave will produce and lay the wound carpet
Cause soon targets damages the thresholds of the U.S. Bureau, my fuse burned slow
I was disturbed to learn of the allegiance of outliers and negative forces we defeated
Duped into believing they captured the menace, when in fact an outside party was afflicted
Crime Lords rise to power after decades, controlling the moderate empire 'til death came

My only love, has left me wrong
They tried to bury me, now it's all gone

My only love, has left me wrong
They tried to bury me, now it's all gone

They got crushed between huge planetoids in an asteroid field
From an outpost this was revealed through holographic projections we enacting the whole cataclysmic demise of the wicked
My eyes were afflicted with shock and exuberance. Each continent they controlled was let loose again
Back to the battle for food and shelter in the financial haven I chose to stealth code
Military field personnel quickly subjugated, the technologically advanced hub of information

Space lanes of the sector began emerging from the ice age as I play professor

Alpha blue biological-

formation duplicated with genetic blueprints of various combinations

Vocabulary very entertainin reflecting on aspects of reality relation

My only love, has left me wrong

They tried to bury me, now it's all gone

My only love, has left me wrong

They tried to bury me, now it's all gone
