

Flowers

Deluxe

She took a flower from the fields
To adorn her room, to get the heat

But when she came back home
There was another one
And this was far away the sun

She took a flower from the fields
(To adorn her room, to get the heat)
She took care of many things
(And she brought some soil from the fields)

It was so beautiful
She water it everyday
As if it was the only one

One day
She came and saw
Oh my god!
There was dead on the floor
One day
She'll find the one
Who make
Change her mind

She took a flower from the fields
To adorn her room, to get the heat

But when she came back home
There was another one
But this was far away the sun

She took a flower from the fields
