

# Seize Your Day

Deluxe

Why don't you sleep at night like the others  
Why don't you need  
A little light  
Why don't you speak  
Outside the covers  
Why can't you be  
Can't be bothered  
Don't you get sick  
Don't you get tired  
Guy, can't you see, you're my type of loser  
Why don't you make my day

Seize your day  
Get up and slay  
Whatever may  
Get in your way

Why don't you need me more than an other  
Why don't you weep  
Why don't you cry  
What do you mean  
You're no suitor matter  
Did you rehearse it face to the mirror  
Like you're too clean  
Like you're too fresh  
Do you plan to be a douchebag forever?  
Or is it just a phase

Seize your day  
Get up and slay  
Whatever may  
Get in your way

Seize your day  
Get up and slay  
Whatever may  
Get in your way

Seize your day  
Get up and slay  
Whatever may  
Get in your way

Get up and slay  
Whatever may  
Get in your way
