

# Over And Over

Demarco

Over and over again (haha)  
I tried to be the best I can  
I tried to be your man (Jah know)

Sleepless nights  
Waking up and you're not there  
That ain't right  
When I met you  
Girl I thought you cared  
Take a look in the mirror  
You can see the reflection  
Of who you really are  
Girl I thought you were my star  
Baby...

Over and over again  
Over and over again  
I tried to walk away from love  
I tried to walk away from love  
Over and over again  
Over and over again  
I tried to walk away from love  
I tried to walk away from love

Her stunning love  
Was like no other  
I'm sitting here  
Remembering the saga  
Over and over  
One bag a drama  
Problem couldn't solve  
Still I love you stronger  
I cya be without yuh  
It so hard being with yuh  
Over and over  
Time after time  
Yeah...

Over and over again  
Over and over again  
I tried to walk away from love  
I tried to walk away from love  
Over and over again  
Over and over again  
I tried to walk away from love  
I tried to walk away from love

I tried to forget you  
I thought that love would let you  
Be the perfect person for me  
But ain't everything that glitter is gold  
Selling your soul ain't no good girl role  
Now I know that it wasn't meant to be  
Yeah...

Over and over again  
Over and over again

I tried to walk away from love  
I tried to walk away from love  
Over and over again  
Over and over again  
I tried to walk away from love  
I tried to walk away from love

Over and over and over  
Over and over and over  
Time after time  
I tried...  
Over and over and over  
Over and over and over  
Over and over  
It's over...
