

Baptize

Demi Lovato

You'll be the concrete
And I'll be the rose that grew up on the ground
Digging too deep in the cracks
Look what you accidentally found
We all fall short from grace, mmhmm (Ooh-hoo, ooh)
Been a big girl in the coldest of worlds
Now handle me with care
I don't mind giving my venom, but I got no feelings to spare
Poison, but you love the way it tastes
Whoa oh, oh

Sometimes the devil's dressed up in lace
But your nails won't bend Prada's shades
Hidden by the designer
Now you gonna have hell to pay
All the secrets my threads have kept
Lift your eyes, bitch, whatever's left
Victim to your desires
Now you're on your knees, like

Hey now, lay me down
Baptize me in your river (Hey now)
Whoa now, the secret's out
We all got a little bit of sinner (Hey now)
Hey now, watch you now
The sharks on the prowl in the river (Hey now)
Lord now, the secret's out
We all got a little bit of sinner
(Hey now)

Got by on my own
Had nobody to show me what lovin' feels like (ooh)
I got no conscience
I'll eat your heart out while you're spending the night
Oh, lord, have mercy on my soul
Whoa (oh)

Sometimes the devil's dressed up in lace
But your nails won't bend Prada's shades
Hidden by the designer
Now you gonna have hell to pay
All the secrets my threads have kept
Lift your eyes, bitch, whatever's left
Victim to your desires
Now you're on your knees, like

Hey now, lay me down
Baptize me in your river (Ooh-hoo)
Whoa now, the secret's out
We all got a little bit of sinner (Ooh-hoo)
Hey now, watch you now
The sharks on the prowl in the river (Hey now)
Lord now, the secret's out
We all got a little bit of sinner (Ooh-hoo)

Earned me a slice of the devil's pie
Then I took the rest later on that night (Ooh)

Now I'm all fired up, but I'm cold as ice
Got a kitty so mean, but you don't play nice
Earned me a slice of the devil's pie
Then I took the rest later on that night
I'm all fired up, but I'm cold as ice
Got a kitty so mean, and she don't play nice

Hey now, lay me down
Baptize me in your river (Ooh-hoo)
Lord now, the secret's out
We all got a little bit of sinner (Ooh-hoo)
Hey now, watch you now
The sharks on the prowl in the river (Ooh-hoo)
Lord now, the secret's out
We all got a little bit of sinner (Ooh-hoo)

Ooh (Ooh)
