

# Concentrate

Demi Lovato

Bottles of Merlot  
I can't stand up now  
Boy, you got me feeling so weak  
Your ocean is drowning me  
Arms wrapped around me  
Now I'm getting in too deep

Not falling 'cause I want to  
Baby you keep pushing me  
Don't love you cause I need to  
But it's everything you doin' to me

Make music when you're moanin'  
From night until the morning  
Just tell me when you're ready  
And Imma paint your body with my lips

Baby I'll do  
Anything you want  
Lock me down like I'm your slave  
Cause ooh  
When you're done with me  
I can't even concentrate, concentrate  
Ooh, I can't even concentrate

Drag of a cigarette  
Sheets are all soakin' wet  
Coldplay on the radio  
You keep running through my head  
Wanna do it again  
We can take it nice and slow

Make music when you're moanin'  
From night until the morning  
Just tell me when you're ready  
And Imma paint your body with my lips

Baby I'll do  
Anything you want  
Lock me down like I'm your slave  
Cause ooh  
When you're done with me  
I can't even concentrate  
Oh, I can't concentrate! (Yeah!)  
I can't concentrate (Yeah!)  
What you do to me, babe (Yeah!)

Baby I'll do  
Anything you want  
Lock me down like I'm your slave  
Cause ooh  
When you're done with me  
I can't even concentrate  
I can't even concentrate  
I can't even concentrate  
I can't even concentrate  
I can't even concentrate
