

Either Way

Demi Lovato

When you hit rock bottom
And you almost break
Feel like god never heard you pray
You let me down almost every day
But baby, I will love you either way

I've been there through every bad decision that you made
Stayed up and held you while the tears ran down your face
I told you "one day, this would all be yesterday"
You said "you're right, but can you take this pain away?"

Some days you hate me and some days you don't
You wanna quit but I know that you won't
In my arms, you can always come home! home!

When you hit rock bottom and you almost break
Feel like god never heard you pray
You let me down almost every day
But baby, I will love you either way
Keep on sayin' that you're gonna change
Waitin' for that light California break
I need you to know that I'm not afraid
But baby, I will love you either way, hey

If you ever think I'm givin' up on you, I'm not
'Cause even when you're runnin' super cold or super hot
I'm in too deep, I'm on no sleep, but I can't stop!
'Cause lovin' you is all I got

When you hit rock bottom and you almost break
Feel like god never heard you pray
You let me down almost every day
But baby, I will love you either way
Keep on sayin' that you're gonna change
Waitin' for that light California break
I need you to know that I'm not afraid
But baby, I will love you either way, hey

I'll always find you in the dark
I'll always see you in the stars!
I'll always find a way, hey, either way
I'll always find you in the dark
I'll always see you in the stars
I'll always find a way, hey, either way
Hey, yeah!

When you hit rock bottom and you almost break
Feel like god never heard you pray
You let me down almost every day
But baby, I will love you either way
Keep on sayin' that you're gonna change
Waitin' for that light California break
I need you to know that I'm not afraid
But baby, I will love you either way
