

Frequency

Demi Lovato

Black leather walking in
Aura so opulent
No way she's confidence
I need your oxygen
Eye contact so divine
Send shivers down my spine
Our zodiacs align
Don't you think that's a sign?

How can a diamond like you exist
In a low-down dirty little place like this?
How can a lover like me ignore
When you're giving me everything that I came here for

I found somebody who can match my frequency
You can't deny all this electric energy
Under the lights, we synchronize, just you and I
No one can fuck up the vibe, fuck up the vibe

Fu-fu-fu-fuck up the vibe, fuck up the vibe
Fu-fu-fu-fuck up the vibe, fuck up the vibe
Fu-fu-fu-fuck up the vibe, fuck up the vibe
Fu-fu-fu-fuck up the vibe, fuck up the vibe

Your kiss intoxicates
Our bodies ride the bass
Can't help but gravitate
Explore my outer space

And if we're living in a simulation
At least we're riding on the same vibration

I found somebody who can match my frequency
You can't deny all this electric energy
Under the lights, we synchronize, just you and I
Whoa-whoa-whoa-whoa

I found somebody who can match my frequency
You can't deny all this electric energy
Under the lights, we synchronize, just you and I
No one can fuck the vibe, fuck the vibe

Fuck the vibe, fuck the vibe, fuck the vibe
Fuck up the vibe

Fu-fu-fu-fuck up the vibe, fuck up the vibe
Fu-fu-fu-fuck up the vibe, fuck up the vibe
Fu-fu-fu-fuck up the vibe, fuck up the vibe
Fu-fu-fu-fuck up the vibe, fuck up the vibe

How can a diamond like you exist?
Fu-fu-fu-fuck up the vibe, fuck up the vibe
How can a diamond like you exist?
Fu-fu-fu-fuck up the vibe, fuck up the vibe
Fuck up the vibe, fuck up the vibe
Fuck up the vibe, fuck up the vibe
