

# Ghost

Demi Lovato

You and me  
I hope we're falling for eternity  
Heavenly  
Hold me and promise that you'll never leave

The one thing that I'm scared of  
Is that your love, could be temporary  
I could die just looking at you  
But if you go before I do

I hope you flicker the lights  
And send a chill down my spine, so cold  
Wanna be haunted for life by your ghost  
If you're not here by my side  
Just show me some kind of sign that you're close  
Wanna be haunted for life by your ghost

I have a tendency to dwell on all the darkest possibilities  
No guarantee  
That we'll wake up together when we fall asleep, oh

Oh, the one thing that I'm scared of  
Is that your love, could be temporary  
I could die just looking at you  
But if you go before I do

I hope you flicker the lights  
And send a chill down my spine, so cold  
Wanna be haunted for life by your ghost  
If you're not here by my side  
Just show me some kind of sign that you're close  
Wanna be haunted for life by your ghost

Oh, and if I am the first one to go  
Oh, you know I'd never leave you alone  
So baby, don't leave me alone  
Oh

I hope you flicker the lights  
And send a chill down my spine, so cold  
Wanna be haunted for life by your ghost  
If you're not here by my side  
Just show me some kind of sign that you're close  
Wanna be haunted for life by your ghost (Ghost)
