Got Dynamite

Demi Lovato

1. I can't take your hand and
   Lead you to the water
   I can't make you feel
   What you don't feel, but you know you wanna
   Find out how to crack me
   Log in, try to hack me

R: Underneath the surface
   There's so much you need to know
   And you might feel like you're drowning
   But that's what I need to let go

   Tell me what you've got to break down the walls
   You just might need dynamite, yeah
   Tell me what you've got to break down the walls
   Kick senseless, my defenses

   Tell me what you're gonna do
   I need you to light the fuse
   Tell me what you've got to break down the walls
   You just might need dynamite
   Got dynamite

2. I can't paint this picture
   Just so you can hang it
   I can't wait for you to understand
   If you just don't get it
   Find out how to crack me
   Log in, try to hack me

R: Underneath the surface...
   Tell me what you've got...
   Tell me what you're gonna do...

3. When the walls come crashing down
   I hope you're standing right in front of me
   When the past lies all around
   Cause all you need to see is me, is to intervene
   And make the walls come crashing down

   Got, got dynamite

R: Tell me what you've got...
   Tell me what you're gonna do...

   Got dynamite (4x)
