

# Without The Love

Demi Lovato

1. I pull my strings and push my sould  
You fool my heart with every note  
You wrap up me and kiss my face  
You make me move then cut the base  
And you work so hard to get me just to let me go  
Yeah you put me in the spotlight just to steal the show  
And you try to take me home like you're domyshio, oh  
It's such a joke

R: Why are you singing me love songs  
We're good as a love song  
We're good as a love song without the love  
Why are you singing me love songs  
We're good as a love song  
We're good as a love song without the love  
Why are we acting like lovers  
We dont know each other  
Even though we used to rule the world  
Why are you singing me love songs  
We're good as a love song  
A love song without the love

2. I'm so confused it's getting old  
You wear your ring, but leave me cold  
You're beautiful, but cause me pain  
You play my heart like it's a game  
And you work so hard to get me just to let me go  
Yeah you put me in the spotlight just to steal the show  
And you try to take me home like you're domyshio, oh  
It's criminal

\*: This is the bending for the break  
When we forget the harmony  
This is how water colors fade into destined memories
